

Ansh Bhardwaj

anshbhardwaj2992004@gmail.com — +91-8393865935 — [LinkedIn](#) — [GitHub](#)

Portfolio: ansh-bhardwaj.netlify.app

Professional Summary

Data Analyst and Data Science postgraduate with hands-on experience in machine learning model development, LLM-based applications, data preprocessing, SQL querying, and deployment of AI systems. Strong analytical and problem-solving skills with focus on real-world data-driven and AI-powered solutions.

Education

Sharda University

Master of Technology (M.Tech) – Data Science

Greater Noida, U.P

2025 – Present

G.L. Bajaj Institute of Technology and Management

Bachelor of Technology – Artificial Intelligence and Machine Learning, GPA: 7.3

Greater Noida, U.P

July 2022 – July 2025

Government Polytechnic Ghaziabad

Diploma – Automobile Engineering, Percentage: 73%

Ghaziabad, U.P

July 2019 – June 2022

Research Experience

Review Paper on Intercropping Systems

Ongoing

- Conducting literature review on intercropping techniques and impact on agricultural productivity and sustainability.
- Analyzing crop yield optimization, soil health improvement, and sustainable farming practices.
- Preparing a review paper for submission to a peer-reviewed journal.

Technical Skills

Languages: Python, SQL, C++, Java

Libraries: Pandas, NumPy, scikit-learn, OpenCV, Matplotlib

Visualization Tools: Power BI, Tableau

AI / LLM Tools: Ollama, Mistral (Local LLM), OpenAI Whisper

Frameworks: Flask

Databases: MySQL

Tools: Git, GitHub, VS Code, Postman, Virtual Environment

Core Concepts: Data Cleaning, EDA, Feature Engineering, Machine Learning, Prompt Engineering, AI Safety

Projects

High-Frequency Financial Data Pipeline & Open Dataset Publishing

[GitHub](#)

- Engineered a Python-based data pipeline to process 3.25GB+ Bitcoin tick data (500M+ rows) and transform it into structured 5-second OHLCV candles.
- Implemented chunk-based processing and disk streaming to overcome 4GB+ RAM allocation errors and optimize memory usage.
- Extracted and processed real-time financial data using Binance API and Angel One SmartAPI.
- Published cleaned MCX Gold & Silver datasets (1-min interval) for quantitative strategy backtesting.

AI Mental Health Counselor (Local LLM Powered)

[GitHub](#)

- Developed a privacy-focused AI assistant using Python and Ollama (Mistral LLM) for offline mental health support.
- Designed modular architecture (core, safety, UI, voice) for scalability.
- Implemented real-time crisis detection using keyword-based adaptive response control.
- Integrated Whisper Speech-to-Text and built an interactive CLI interface.
- Engineered structured prompts for empathetic Hinglish responses.

Rain Prediction Web Application (Machine Learning)

[GitHub](#)

- Built a Logistic Regression model to predict next-day rainfall.
- Performed preprocessing and feature engineering using Pandas and scikit-learn.
- Achieved 93% prediction accuracy and deployed using Flask.

Certifications

- Google Data Analytics Professional Certificate – Coursera
- Postman API Fundamentals Student Expert
- Python Programming Fundamentals – Ybi Foundations
- Artificial Intelligence Certification – Rinex

Leadership & Activities

- Active member of College Music Club; regularly perform singing at college events and cultural programs.
- Managed and coordinated multiple club events and cultural fests.
